

EVERYDAY HYDRATION FROM THE SEA

Most electrolyte drinks chase output. OSMEA restores input, with minerals as the sea made them, for an everyday return to balance. Four whole ingredients deliver hydration your body understands, with a lemon-bright, coconut-soft taste and a clean mineral finish.

It's not a sports drink. It's a new RTD category: hydration from the sea. Not an isolated electrolyte mix added to overfiltered water, but an everyday refresher built for the health-conscious shopper, all day long.

FOUR INGREDIENTS, ALWAYS WHOLE

Seawater
From a protected archipelago off the coast of France.

Coconut water
Organic young Sri Lankan coconut, every harvest tested.

Spring water
Blue Ridge mountain spring water, North Carolina.

Lemon juice
Organic California Eureka lemon, for brightness.
